

**STRONG, COMPACT ACTIVE
COIN SORTER**

ICX ACTIVE-9

**Reliable and efficient.
High levels of throughput
to boost your business**

WHEN SPEED AND ACCURACY MATTER

Eagerly anticipated, intelligent, and fresh out of the box, PayComplete proudly presents the ultimate mid-weight, strong, reliable coin counter/sorter. An exciting contender to make an entrance into the cash solution market, the ICX Active-9 is perfect for medium-sized businesses, especially those wishing to process medium volumes of coin without having to worry about reliability and capability.

FEATURES ACTIVE SORTING® FUNCTIONS

- Process multiple currencies
- Configured in software
- Highest throughput and efficiency
- Add multiple coins to the same bag
- Bag switching
- Multiple set-ups

OUTSTANDING COIN SORTER FOR MEDIUM COIN VOLUMES

The ICX Active-9 fills a void in which organizations had limited choices, delivering a competitive mid-range coin solution for customers who need a reliable, robust machine at a competitive price. The ICX Active-9 is the perfect solution for customers who manage medium volume of coins but need the reliability and outstanding features of the ICP Active-9. The solution is designed to tackle problems in multiple sectors:

- Banking
- Vending Companies
- Medium Sized Enterprises
- CCP & Mints
- Smaller CIT Companies
- Retail back office
- Gaming & Amusement

LATEST DESIGN WITH PROVEN BEST-IN-CLASS TECHNOLOGY

The ICX Active-9 design was developed in response to our customers’ feedback and adapted to match their needs. Through years of research, development, testing and industry trials, the ICX Active-9 has been engineered to be the most accurate and consistent coin sorter on the market. Additionally, the device has a 10-inch LCD touchscreen display for quick operation, allowing the operator to easily change the denominations set-up and keep track of the cash management data to further develop their business.

INTELLIGENT COIN PROCESSING

The ICX Active-9 features the same firmware as the powerful ICP Active-9 platform with our unique, software-controlled Active Sorting® technology. This technology has the ability to re-program sensors providing the intelligence required to instantly adapt to future regulatory needs without investing in new hardware. Of course, the solution is already capable of handling the latest coins, such as the new £1.

KEY PRODUCT FEATURES

- Active Sorting®
- 9 coin outlets plus 1 for rejection
- 10-inch touchscreen user interface
- Low-power consumption
- Functions as desktop or standalone solution
- Three USB ports for accessories and peripherals
