NOTE COUNTER & SORTERS

SC-8100

**Currency Counter
Latest Sensor
Technology**

CURRENCY COUNTER WITH OUTSTANDING RESULTS

Do you need a currency counter that counts genuine notes and detects counterfeits? The SC- 8100 is a high quality currency counter that will deliver outstanding results, and is also equipped with the latest sensor technology, to securely find known counterfeits. Besides regular value counting of currencies, you can also use this machine for document counting.

FEATURES

- More than 60 different currencies available
- Sensors and counterfeit detection

- Multi language: English, German, French, Italian, Spanish, Portuguese, Greek

- Value counting and counterfeit detection according to ECB

EASY UPDATES AND UPGRADES

Updates are easily carried out by simply inserting an SD card in the SD card slot on the back of the machine. This means that you no longer have to wait for a technician - you simply wait for the card to arrive in the mail! The same update can also be sent by mail before copied onto an SD card. Machine upgrades, such as adding another language or currency, is done through the USB connection and a PC software by a technician.

UNIQUE DESIGN FEATURES

When designing the SC-8100 currency counter, we listened to our customers. This is why there is a built-in carrying handle to conveniently move the device around your office. Should there be a jam or problem with the note feeding mechanism, you have easy access to the complete note path and sensor area to remove jammed notes (or to clean) - without having to loosen one single screw!

SUPERIOR FINANCIAL AND OPERATIONAL CONTROL

The counter works seamlessly with the unique monitoring software, SoftOne Intelligence, and the Cash Center processing solution, Connect Cash. The management platform offers you superior financial and operational control of cash and brings the very most out of your new counter. Maximize the value of your business and benefit from best-in-class cash handling technology and system.

- ERP integration
- Report generation
- Automatic reconciliation
- Financial control

SAVING TRANSACTION DATA

With the PC Suite software and USB cable included with the SC-8100, transaction data can be saved to a file or database on a PC. Perfect if you wish to process the data further in your ERP system or Excel spreadsheet.

VALUE COUNTING AND DOCUMENT VERIFICATION

The SC-8100 can count documents in addition to currencies. This feature is widely used in elections where a lot of time can be saved and accuracy improved when used in place of manual counts.

MULTI CURRENCY

Up to five different currencies can be installed simultaneously on your machine. Over 60 currencies are currently supported and more are added continuously.

SENSORS AND COUNTERFEIT DETECTION

The SC-8100 is equipped with the latest sensor technology, including magnetic (MG), ultraviolet (UV), infrared (IR), and image detection, to accurately detect known counterfeits. By keeping the machine up-to-date you will always be sure to detect even the newest counterfeits.
