RECYCLERS

SPS-30A

**All In One Kiosk solution**

THE POS SOLUTION FOR ALL RETAIL SCENARIOS

The SPS-30A is a unique market changing, plug and play counter-top self-service device incorporating cash payment capabilities along-side digital payments. Device is configurable to multiple scenarios (cashier assisted or full unattended self-checkout mode).

FEATURES:

- Countertop installation
- Designed to be a Complete Self-Checkout unit or a Smart Drawer
- Compatible with Windows/Linux/Android POS software
- Simplified maintenance

- 15.6" Multi Touch display
- Banknote and coin recyclers
- Credit/debit card reader
- Built-in thermal receipt printer
- Embedded 1D/2D barcode reader

- Remote assistance (embedded webcam with microphone and speaker)
- Remote device monitoring through Connect platform

BENEFITS

- Simplified integration of 3rd party POS software

- Compatibility with different in store scenarios (from semi attended to full self-checkout mode)

- High flexibility: predisposed to interact with all POS software (multi operating system platform)

- Full control in a single platform of all the transactions (cash and cashless)

- Reduced cost of ownership

- Simplified cash handling

- Shrinkage reduction
