

## SC-303 & SC-313

### Fast, Accurate, and Versatile Coin Counters

With their counting speeds, the SC-303 and SC-313 save time and boost efficiency for banking, retail, amusement, and other businesses that count, verify, or bag coins and plastic tokens. The SC-303 features a handy carrying handle for portability, while the SC-313 comes with an automatic coin hopper and significantly larger capacity, making it the ideal choice for higher-volume operations. Compact and versatile, both models fit seamlessly wherever you need them.

#### Key Features

##### High-Speed Coin Counting

Both models count coins at up to 2,700 coins per minute, speeding up cash handling tasks and increasing efficiency.

##### Proven Sensor Technology

Electronic sensing ensures accurate detection of coins while identifying foreign, damaged, or counterfeit pieces for reliable results.

##### Universal Coin Compatibility

Adjustable settings for coin diameter and thickness make the SC-303 and SC-313 suitable for a wide variety of coins and tokens from different currencies.

##### Smart Memory & Controls

Microprocessor control with non-volatile memory stores totals and batch data without a battery. Seven programmable batch stops and multiple memory levels ensure flexible, efficient operation.

##### Automatic Jam Handling & Stop Functions

Automatic reverse and stop functions clear jammed coins and stop counting when no coins are detected, reducing interruptions.

##### Reject & Off-Sort Functions

Side bag attachment for rejected or off-sorted coins helps separate unwanted coins during counting.

##### Clear Display & Easy Controls

A six-digit LED display provides easy-to-read count and batch information, while intuitive controls make setup and operation straightforward.

##### Model-Specific Additions

- SC-303: Includes a carrying handle for easy portability.
- SC-313: Features an automatic coin hopper with larger capacity — ideal for higher-volume counting.

#### Key Benefits

##### Save Time, Boost Efficiency

Process up to 2,700 coins per minute and dramatically reduce counting time, keeping operations running smoothly and staff focused on higher-value tasks.

##### Simplify Every Workflow

Easily handle mixed coins, pre-programmed batches, and rejects — with portable or high-capacity options — for effortless, stress-free cash management.

##### Count with Confidence

Advanced sensors accurately detect foreign, damaged, or counterfeit coins, ensuring reliable results you can trust every time.

##### Fit Anywhere, Work Everywhere

Compact, versatile design adapts to any workspace, from retail counters to back offices, without compromising performance.

**Technical Specifications**
