

SC-350 & SC-360

Fast, Reliable,
Ready for Any Coin.

Designed for businesses that demand fast, accurate, and efficient coin handling, the SC-350 and SC-360 streamline counting, verifying, and bagging of coins or tokens. With speeds of up to 3,000 coins per minute, versatile settings for multiple coin types, and smart features like automatic jam reversal and pre-programmed batch stops, these machines combine reliability, speed, and flexibility. The SC-350 offers a manual hopper for straightforward operation, while the SC-360's larger automatic hopper makes it the ideal choice for high-volume counting. Compact, user-friendly, and built to handle heavy workloads, the SC-350 and SC-360 bring modern efficiency to any cash-handling environment.

Key Features

High-Speed Coin Counting

Both models count up to 3,000 coins per minute, providing fast and efficient coin processing for businesses that count, verify, or bag coins or tokens.

Universal Currency Compatibility

Separate adjustments for coin or token diameter and thickness allow usage with a wide range of currencies and token types, making the machines versatile across different applications.

Non-Volatile Memory

Memory stores counted coin data even through power interruptions, ensuring nothing is lost during operations.

Smart Memory & Core-Programmable Stops & Continuous Modentrols

Seven pre-programmable quantity stops plus one continuous mode allow flexible batch counting tailored to bag or tube sizes.

Automatic Functions

Includes automatic reverse to clear jammed coins, automatic stop, and out-sort for smaller coins – improving reliability and reducing manual intervention.

Serial Interface for PC Control

A serial interface enables monitoring and control from a PC, allowing integration with remote displays or external systems.

Easy Access & Serviceability

Improved access to the coin rail makes checking and servicing the machine simpler and faster compared with many competitors.

Model-Specific Features

- SC-350: Manual coin hopper.
- SC-360: Larger automatic coin hopper with filling, ideal for higher volume

Key Benefits

Maximize Throughput, Minimize Time

Process up to 3,000 coins per minute and keep high-volume operations running efficiently with faster cash handling.

Adapt to Any Operation

Easily manage multiple currencies or tokens with adjustable settings, batch stops, and continuous mode for seamless workflow flexibility.

Count with Total Confidence

Advanced electronic sensing delivers precise detection and consistent accuracy, reducing errors and ensuring dependable results.

Effortless Daily Operation

Compact design, intuitive controls, and manual or automatic hopper options simplify setup and reduce downtime in demanding environments.

Technical Specifications

	SC-350	SC-360
Speed	Up to 3,000 coins/min	Up to 3,000 coins/min
Diameter	14 - 34 mm	14 - 34 mm
Thickness	1.0 - 3.6 mm	1.0 - 3.6 mm
Voltage	110/230 V 50/60 HZ	110/230 V 50/60 HZ
Power	100 W	120 W
Dimensions (WxDxH)	295 x 480 x 250 mm	295 x 480 x 380 mm
Net Weight	17.5 Kg	19.5 Kg

Accessories & Options

012547-003 (RD8)	Remote customer display
002726-004 (BA 5)	Bagging attachment
010686-000 (BG 1)	Bag guide without shelf
002959-000	Bag guide with shelf
015317-001 (FC 3)	Foot control
002525-000 (IH 1)	Insert holder for TI 1
002703-xxx (TI 1)	Turbing insert
