

RCS-700

High Speed Note Recycler

Efficient Float and Till Management with Large Storage Capacity

The RCS-700 combines high-speed efficiency with large storage capacity, ensuring operators always have the right amount and denominations of cash available. Smart sensors help reduce costly maintenance and downtime, allowing operators to focus on other high-priority business areas.

Key Features

- **Continuous High-Speed Deposit**
Facilitates fast checkout by eliminating downtime during batch processing (10 notes/second)
- **Increased Lifespan of 15 Million Notes**
Reduces service costs and machine downtime
- **Superior Jam Prevention**
Combined with a simplified, horizontal note path for higher machine uptime
- **Customizable Cassette Configurations**
Can be modified even after deployment to suit specific operational needs
- **High Capacity**
Up to 16,400 total note capacity and 13,600 total recycling capacity. Reduces CIT pickups, minimizes vault transactions, and ensures you never run out of the most commonly used denominations
- **Smart LED Machine Status Indicator**
Instantly alerts employees to the machine's operational status
- **Built-in Drop Safe with Separate Access**
Secure cash storage with easy access for authorized personnel
- **POS, CIT, and ERP Integration**
Seamlessly integrates with your existing systems for smooth operations

Technical Specifications

Software	Connect On-Device™
Counting Speed (Deposit/Dispense)	up to 10 notes/second, up to 600 notes/minute continuous feed
Recycling/Dispense Capacity	Up to 13,600 notes. 4 Single cassettes (up to 3,400 notes each) or 4 Dual cassettes (up to 1,800 + 450 notes each) or a combination of Single and Dual cassettes
Double Recycling Cassette	Yes, 1,800 + 450 notes = 2,250 note capacity
Denominations	Up to 8 denominations to be recycled (If using four Dual Recycling Cassettes)
Configurable Cassettes	1-4 cassettes with single or double compartments
Safe Rating	UL 291 (CEN IV on request)
Dimensions (WxDxH) Without PC	21" x 37" x 42" (53 x 93 x 105 cm)
Power and Frequency	100-240 VAC, 50/60 Hz

Updated 05/03/2026

Key Benefits

- **High-Speed Processing**
Eliminates downtime during batch processing, facilitating fast checkout and improved customer experience
- **Efficiency Gains**
Improved operational efficiency and enhanced ROI from fewer CIT pickups and minimized downtime
- **High Capacity**
Large storage capacity minimizes vault transactions, reducing the need for frequent CIT pickups and preventing stockouts of essential denomination
- **Powered by Connect on-Device**
A key part of the PayComplete Connect Platform for unified cash management
