PayComplete

# RCS-Active

## Coin Recycler

### Massive capacity, real-time transaction monitoring, smart device

The RCS-Active is an innovative, high-performance cash management solution designed to revolutionize the way businesses handle coins. Powered by our Active Sorting® technology, the system allows businesses to manage large volumes of coins with maximum efficiency, visibility, and control. It is seamlessly integrated into the PayComplete Connect platform, providing you with real-time transaction monitoring, automatic reconciliation, and detailed cash cycle insights.

### Key Features

**Massive 32,000 Coin Capacity**
Extends time between administrative activities and reduces manual intervention

**Separate Access to Upper/Lower Compartments**
Increases security by reducing access to the coin vault and enhances serviceability

**High-Speed Processing**
2,000 coins per minute processing rate allows for efficient coin handling and quick deposits

**Multi-Currency Compatibility**
Accepts and recycles multiple currencies, making it ideal for global operations

**Active Sorting® Technology**
Active Sorting® allows flexible reassignment between hoppers and denominations, including using multiple hoppers for the same denomination to modify coin capacity

**POS, CIT, and ERP Integration**
Streamlines financial and operational processes by seamlessly integrating with existing systems

**Advanced Sensors**
Detects diameter, thickness, surface & bulk conductivity, and magnetic properties, enabling more sophisticated sorting for superior reliability

**Connect On-Device Operating System**
An industry-leading operating system that powers the device and ensures smooth operation

**Improved "Y-Chutes" for Coin Outlets**
Reduces jamming during deposits and improves coin outlet efficiency

**Part of PayComplete Connect Platform**
Provides superior financial and operational control of cash throughout the entire cash cycle

### Key Benefits

**Visibility & Control**
Real-time transaction monitoring for full transparency and continuous device and event monitoring to ensure maximum uptime

**Improved Cash Handling**
Advanced coin sorting with reduced jamming and smoother deposits

**Operational Efficiency**
Optimize cash cycle with insights for better cash order planning

**Smart Operations**
Automatic POS reconciliation and seamless ERP integration
