CDS-9R

Self-service coin recycler kiosk

Improve self-service coin deposit; increase back-office efficiency

Turn coin handling costs into profit

The CDS-9R is the world's first self-service coin recycler for public use to optimize the cash management process. This two-in-one self-service cash solution is a convenient one-stop-shop for both bulk cash deposit and dispense, eliminating the need for costly coin roll dispensers and separate coin deposit machines.

Make coin redemption part of your customer service

- Provide customers with a convenient coin redemption option
- Connect coin redemption to store-branded digital wallets and rewards programs
- Combine coin redemption with other consumer services (prepaid cell phone credit, layaway, etc.)

Create a new front-end revenue source

- Collect fees from consumers for coin redemption
- Encourage additional consumer spend through program tie-ins
- Drive in-store traffic with value-added consumer services

Reduce coin costs and shortages by recycling consumer coins

- Subsidize back-office cash recycling with a consumer coin device
- Eliminate coin shortages with access to consumer coin device deposits
- Make coins part of a unified view of cash transactions

All-in-one coin handling

The CDS-9R is a completely new banking solution for coin deposit as well as coin dispense. Retailers and private customers in need of bulk coin deposits can easily make quick and secure deposits.

At the same time, the CDS-9R is perfect for retailers in need of a daily float. The machine dispenses all denominations. The device dispenses all denominations in any mix or split the operator wants.

Control coin costs by recycling

The CDS-9R is a two-in-one self-service coin machine, functioning as a convenient one-stop-shop for both bulk coin deposit and coin dispense. The recycling technology reduces the need to restock the machine, minimizing CIT costs. When needed, the CDS-9R is designed for quick and easy filling or emptying, for minimal downtime.

You'll see a quick return on investment through dramatically improved cash management at all levels.

Cycle cash efficiently

The steady flow of cash into your back office needs to be counted, allocated and secured quickly and efficiently. The CDS-9R helps you control your cash through an efficient cash cycle in all areas of your business, from internal cash handling to CIT operations. You'll time and money while allowing you to focus on improving customer service.

So easy, it's revolutionary

Transform clients' manual coin counts into an enhanced customer service experience with automated cash processing. With CDS-9R there will be no more need for direct coin-roll dispensers and separate coin deposit machines.

Get more value from your cash

Make the CDS-9R part of your daily operations and stop spending hours on cash administration and counting.
